Miss Selma Pierson
Clark House
Smith College
Northampton, Mass.

Dear Miss Pierson:

As we discussed, I am sending you a couple of library discs so that you may try out your equipment and determine whether it is suitable for transcription reproduction. When you have had a chance to test these, I would appreciate your returning them to the New York office, address above, and write me promptly at my Chicago office, 360 North Michigan Avenue, as to the results. If satisfactory, I will then have the basic library shipped to you from our Hollywood office immediately.

Along with the discs, I am also sending the sound effects catalog which you requested and a folder describing our Mood Music Library.

Looking forward to hearing from you and with best personal wishes,

Yours cordially,

Milton M. Blink
